

Upcoming Events

LiDAR and large-scale digital photography: Uses in natural resource management

September 10–11, 2008. UNBC, Prince George, BC.

The Aleza Lake Research Forest, in partnership with the University of Northern British Columbia, the University of British Columbia, the BC Ministry of Forests and Range, and FORREX is hosting a workshop to present and discuss the results of their recent research project to evaluate and compare the use of LiDAR remote sensing technology and large-scale digital photography to measure two forest values: timber volume, and carbon stocks. Please visit http://www.unbc.ca/conference/external_conferences/lidar_conference.html

Understanding and enabling adaptive management in natural resources

September 22, 2008. Nelson, BC.

Presented by the BC Ministry of Forests and Range, this workshop is for those who are interested in learning about the key concepts of adaptive management, understanding how they can apply adaptive management in their work, and networking with other interested people to form a "Community of Practice." Please contact Alanya Smith at 250-387-8922 or Alanya.C.Smith@gov.bc.ca

Restoration of the boreal forest

October 1–3, 2008. University of British Columbia, Prince George, BC.

Presented by the BC Chapter of the Society for Ecological Restoration (SER-BC) and the Continuing Studies Department at the University of Northern BC, conference themes include boreal forest restoration, ungulate population/habitat restoration, pine beetle impact restoration, and aquatic restoration. Please visit <http://www.ser.org/serbc/conference.asp>

One watershed–One water

October 21–23, 2008. Coast Capri Hotel, Kelowna, BC.

The "One Watershed–One Water" conference will focus on sustainable water management, and highlight ongoing research

and future needs in the Okanagan "water laboratory." For more information, please visit http://www.obwb.ca/o_wow/

Fostering sustainable behaviour

October 23, 2008–Introductory. October 24, 2008–Advanced. Richmond, BC.

Dr. McKenzie-Mohr, well-known environmental psychologist, will present two workshops on fostering sustainable behaviour. To register, please download the registration flyer at <http://snipr.com/2ewih-sirg4r> For more information, email to web@cbsm.com or call 506-455-5061.

Wildland-urban interface fires, fuel management, and ecosystems

November 5–6, 2008. Cranbrook, BC.

Management plans for reducing the likelihood or severity of wildland-urban interface (WUI) fires are in preparation and, by their nature, favour economic and social factors. This conference will examine these factors, and address how management for WUI fires and fuels might also accommodate, or improve, ecological values. Please visit <http://www.cmiae.org>

Closing the loop: Putting research into action

December 1–3, 2008. University of Northern British Columbia, Prince George, BC.

This BC Protected Areas Research Forum conference will focus on examining lessons learned from putting research into practice and identifying what kinds of research needs to be done to better inform protected areas management and successful partnerships with neighbours. Please visit <http://www.unbc.ca/bcparf/conferences/index.html>

River Restoration Northwest

February 3–5, 2009. Skamania Lodge, Stevenson, WA.

This conference focuses on stream restoration questions of concern to project planners, designers, engineers, biologists, hydrologists, geomorphologists, regulators, and land managers. The intent of the Symposium is to focus on a multi-disciplinary approach to stream restoration design, hence a broad range of speakers and topics are encouraged. Please visit the RRRW website at <http://rrnw.org>

FORREX Board

Dr. Dave Wilford

—Chair
BC Ministry of Forests and Range
